

Factsheet RoutineFactory

innovatie@aveleijn.nl

The RoutineFactory Infoboard is an interactive screen designed for assisted living facilities and workplaces. Clients can easily look up information themselves. The Infoboard can, for example, show who works, what is on the menu and which tasks to be done. An Infoboard is tailor-made for each location. In addition, clients can use the app individually to be able to follow their own daily structure.

Staff testimonials

"By using the infoboard, we achieve that clients can independently choose which activities they want to do. The infoboard shows what you can choose from and from there they make their own choice."

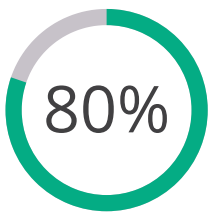

"It makes it easier to guide the client. It gives the client has more peace of mind, so he also comes to us with fewer questions."

"We can provide clarity at a glance. The time that you would otherwise lose it, you can now do other things for / with the client. "

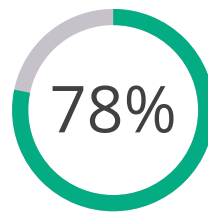

Client testimonials

"I also have the information board on my tablet: then I can see who works when. Read sports news / all news about what's happening in the world."

"I use the information board to see who works, I get more peace of mind and more overview."
